

## Intermediate and Advanced Agility

Intermediate and Advanced classes are for teams preparing for or already competing in at least Novice/Starters level of competition.

Full courses, short handling sequences, difficult discrimination exercises and agility games will be practiced each week.

Your dog must be confident on all contact equipment, training towards 12 weave poles, and jumping full-height. The handler must be able to complete full courses.

This is an on-going class which allows drop-in students on a week-by-week basis as well as those attending the entire 6-week session.
